Social Engineering Red Flags

FROM

- I don't recognize the sender's email address as someone I ordinarily communicate with.
- This email is from someone outside my organization and it's not related to my job responsibilities.
- This email was sent from someone inside the organization or from a customer, vendor, or partner and is very unusual or out of character.
- The sender's email address from a suspicious domain (like microsoft-support.com)?
- I don't know the sender personally and they were not vouched for by someone I trust.
- I don't have a business relationship nor any past communications with the sender.
- This is an unexpected or unusual email with an embedded hyperlink or an attachment from someone I haven't communicated with recently.

DATE

- Did I receive an email that I normally would get during regular business hours, but it was sent at an unusual time like 3 a.m.?

SUBJECT

- Did I get an email with a subject line that is irrelevant or does not match the message content?
- Is the email message a reply to something I never sent or requested?

ATTACHMENTS

- The sender included an email attachment that I was not expecting or that makes no sense in relation to the email message. (This sender doesn't ordinarily send me this type of attachment)
- I see an attachment with a possibly dangerous file type. The only file type that is always safe to click on is a .txt file.

CONTENT

- Is the sender asking me to click on a link or open an attachment to avoid a negative consequence or to gain something of value?
- Is the email out of the ordinary, or does it have bad grammar or spelling errors?
- Is the sender asking me to click a link or open up an attachment that seems odd or illogical?
- Do I have an uncomfortable gut feeling about the sender's request to open an attachment or click a link?
- Is the email asking me to look at a compromising or embarrassing picture of myself or someone I know?

TO

- I was cc'd on an email sent to one or more people, but I don't personally know the other people it was sent to.
- I received an email that was also sent to an unusual mix of people. For instance, it might be sent to a random group of people at my organization whose last names start with the same letter, or a whole list of unrelated addresses.

HYPERLINKS

- I hover my mouse over a hyperlink that displayed in the email message, but the link-to address is for a different website. (This is a big red flag.)
- I received an email that only has long hyperlinks with no further information, and the rest of the email is completely blank.
- I received an email with a hyperlink that is a misspelling of a known web site. For instance, www.bankofamerica.com — the "m" is really two characters — "y" and "n."

Shepherds Field Olive Wood Handcrafts
Feb. 23 rd & 24th

"A group from the Holy Land (Bethlehem & Jerusalem) will be selling religious articles after masses to support the Catholic Christian minorities in Bethlehem. As a tradition, many of the Catholic families in the Holy Land work in small workshops to produce religious articles from olive wood. These articles represent the Christian art of the Holy Land. In the past, they used to sell their artwork to pilgrims who visit the Holy Land. However, these days they are facing an economic hardship as very few tourists visit the Holy Land due to security issues. Many of the Catholic families immigrated and left the Holy Land. The percentage of Christians in the Holy Land has dropped from 20% to less than 1%. Therefore, if this hardship continues as it is now, we believe that in a few years, there will be no Catholics in Bethlehem or Jerusalem. The struggle to preserve the Catholic identity of the birthplace of our savior; Jesus Christ is a serious concern for Catholics around the world. Sales will be used to help and support the Catholics in the Holy Land and to encourage them not to immigrate."
